KEYNOTE SPEAKERS

OCTOBER 20, 2018

DR. BARRY THORNLOE BSc BSN MD FRCPC

"Obstetric Anesthesia: Update on Preeclampsia and Uretotonic usage in Canada"

Dr. Thornloe grew up in the lower mainland British Columbia. BSc. In Biology at UBC (1994) Traveled around the world (1994/95). BSN in nursing at UBC (1998). Worked at BCWH as LD RN and Perinatal Clinical Educator. MD UBC (2008) Residency in Anesthesiology University of Alberta (2008-2013) Fellowship in OB Anesthesia University of Toronto (2016) Obstetric Lead and Staff Anesthesiologist at Royal Columbian Hospital 2014 - Present.

DR. KRISTA GENOWAY MD FRCPC, PLASTIC SURGERY

"Current Advances in Upper and Lower Gender Affirming Surgery: A BC Perspective."

Dr. Genoway is a plastic surgeon certified by the Royal College of Physicians and Surgeons of Canada. She completed medical school and a residency in plastic and reconstructive surgery at UBC. She then completed a fellowship in reconstructive microsurgery with a sub-specialty in gender-affirming surgical care in San Francisco.

DR. VICTOR LEUNG, MD FRCPC, INFECTIOUS DISEASES & MEDICAL MICROBIOLOGY

"Why are penicillin allergies harder to remove than tattoos? Understanding the Importance of Penicillin Allergy De-labelling."

Upon graduation from UBC Medical School, Victor pursued further training in Internal Medicine at UBC. He then specialized in both Infectious Diseases and Medical Microbiology and obtained combined fellowships from McGill University. He returned to Vancouver and worked at Providence Health Care (PHC) as an Infectious Diseases consultant, Medical Microbiologist and Infection Prevention and Control (IPAC) Physician. He spends most of his time at St. Paul's Hospital and became the Medical Director for IPAC in 2015. In 2013, he founded the PHC Antimicrobial Stewardship Program (ASP). His main clinical and research interests are in stopping preventable infections and developing and implementing coordinated interventions to promote responsible antimicrobial use.

KEYNOTE SPEAKERS

OCTOBER 20, 2018

DR. SU-YIN MACDONELL BSN MD FRCPC

Myocardial Injury after Non-cardiac Surgery (MINs) Surveillance Topic

Su-Yin started her career as a professional ballet dancer before completing her BSN at UVIC (2005). After two years as a medical-surgical Registered Nurse, she obtained her MD at UBC (2011). Her Residency in Anesthesiology at UBC (2017) was lengthened slightly by having two daughters. Following residency, Su-Yin had additional training in Perioperative Vascular Medicine in Hamilton, Ontario and Point of Care Ultrasound (POCUS) certification through CHEST. Su-Yin is presently studying her masters in Perioperative Medicine, through the University College of London.

As a staff Anesthesiologist at St. Paul's Hospital (Vancouver), she is part of the Perioperative Medicine team and has recently accepted the role of Perioperative Medicine Fellowship Director. Su-Yin values working at a major academic center where she can maintain involvement with medical student and Anesthesia Residency education.

Outside of medicine, Su-Yin continues to dance, reluctantly cleans up after husband and two young children, and tries to read before falling asleep with the light on.

DR. KURT SAMER FRCP MD ANESTHESIA

"Professionalism, where did you go?"

Kurt Samer obtained his MD and specialist training in Anesthesia at the University of British Columbia in Vancouver, Canada. He has 40 yrs. experience in the practice of Medicine, Anaesthesia, ICU/Critical Care, and chronic pain management in Campbell River and Vancouver. Following surgical missions to Guatemala in 2004 and 2005, he became an International Delegate with the Canadian Red Cross in 2012, and anesthesiologist member on their ERU (Emergency Response Unit) roster.

Kurt has participated as a facilitator/mentor at CRC ERU training, made a presentation at the World Congress of Anesthesiologists in Hong Kong in 2016 at the request of ICRC, sharing his experiences in South Sudan and advocating and recruiting for the ICRC and the Red Cross movement. In addition, he has made similar presentations to local groups of anesthesiologists in Vancouver and Victoria, to engage and motivate other health care professionals to become involved in humanitarian activities, to volunteer their knowledge and skills to assist the many around the world most in need, due to disaster and conflict.
